### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wesley Whitmyer (Reg. No. 33,558) on 20 December 2006.

2. The application has been amended as follows:

In claim 54, replace "said processor receiving said processor program" with --  
said processor receiving a processor program".

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest a video imaging system as claimed comprising a device program and a processor program wherein the device program configures a configurable hardware device and the processor program overwrites a pre-existing processor program on the processor as claimed. While systems in which configurable hardware elements are programmed to interface with cameras are known in the art, the two stage system claimed is not taught or suggested.
